During the stay in Slovenia a project logo was selected, which was the subject of a competition organized for students from all partner schools.

Newsletter 2 - Meeting in Krakow

The second meeting was held in Krakow in Specjalny Ośrodek Szkolno – Wychowawczy dla Nieśłyszących im. Janusza Korczaka

- The participants acquired different skills in IT field such as: using cloud computing and online documents storage, using useful free stock photo and finding suitable graphic for the assessments. They get to know free Learning App that so they are ready to create own educational game, application that would be useful for the students. They find out how to work with Prezi Next to prepare an interesting presentation.

What’s more they were trained in using Blogger to prepare a WebQuest – Blogger is the service that is being used to create blogs / websites without knowing the secrets of building web pages. The service is based on the content management system and allows anyone to develop a website for a variety of activities.

- All training materials can be found at <http://jobquestlitt.blogspot.com>).
- There were also career counselling classes organized by school professionals.
- Project participants took part in a conference " Deaf students with additional disabilities" that was organized by the school. The case study of career counselling for those children was shown by polish participants.

Newsletter 3 - Meeting in Kremnica

The third meeting was held in ZŠ pre žiakov so SP int. V. Gaňu, ŠZŠ pre žiakov so SP int., Praktická škola Kremnica. Participants:

- got familiar with Slovak educational system, visited the school and a dormitory

- took part in a career counselling class observation, learned about methodology and tools used by educational counselor in the ZS pre SP, int. V. Gaňu v Kremnici,
- met a professional from UK Bratislava and discussed about psychological and career counseling for people with disabilities in Slovakia,
- took part in a conference “Inovations in education of hearing impairment and multiple disabled students” organized by the school,
- presented the data that were collected via **Graduate’s questionnaire**,

And as a result they have created a complete, universal screenplay for the "**Carryon signing**" **video guide**. Groups of participants have developed material for individual episodes and after brainstorming they have adopted a homogeneous content and have set the technical details for movies.

The video guide is going to be prepared in every national sign language.

Newsletter 4 - Meeting in Bratislava

The meeting took place at Stredná odborná škola pre žiakov so sluchovým postihnutím in Bratislava. We had the last opportunity to exchange experience and knowledge.

The school in Bratislava provided well organised programm. The programm of the meeting contained presentation of tools and methods used at SOŠ Koceľova for career counselling and workshops.

Participants took part in career classes, meeting with the students and a special event “Everybody entertains everybody” - connected to group career counseling.

We had also a training in another ICT tool which is Socrative - the app for fun, effective engagement and on-the-fly assessments.

The main goal for the meeting was also preparing manual for career counsellors. The manual contains all useful materials prepared during former mobilities and project activities.
